ABOUT ME

Results-driven Odoo Developer with 2 years of experience in designing, customizing, and implementing robust Odoo ERP solutions. Proficient in Python, XML, and JavaScript, with strong expertise in both backend development and frontend customization. Experienced in delivering scalable solutions across HRMS, Sales, and complex business workflows, including report development and process automation. Adept at translating business requirements into efficient technical solutions that enhance operational performance. Committed to continuous learning and delivering high-quality, reliable ERP systems.

WORK EXPERIENCE

Junior Application Developer, Aarbee Technology Solutions

03/2024 – Present

- Integrated External API with Odoo System
- Built custom Odoo models using Python to handle dynamic business logic
- Used JavaScript to pass context to backend models and control frontend behavior
- Improved UI using CSS for better user experience
- Designed dynamic models that behave differently based on user roles
- Implemented Role-Based Access Control (RBAC) using XML security rules and Python logic
- Created and customized views (Form, Tree, Graph, Pivot) based on business needs
- Developed and customized QWeb reports and integrated email templates
- Wrote optimized PostgreSQL queries for fetching and analyzing task data
- Automated workflows like default product addition, status validation, and error handling
- Worked on HRMS, Billing, and Reporting modules to support internal operations
- Developed a complete Timesheet module using full-stack skills
- Automated multiple processes inside the Timesheet model
- Implemented auto-tracking for employee leaves, holidays, attendance, worked hours, and logged hours
- Automated tracking of manager activities for timesheet approvals
- Automated process of Sales order creation to Invoice using Fast API

Cybersecurity Intern, Alstom

05/2023 – 07/2023

- Contributed to the development of the SICOP process for managing cybersecurity requirements.
- Supported V-Model lifecycle activities across different project stages. Worked closely with a Senior Cybersecurity Engineer to understand network architecture and firewall configuration.
- Assisted in requirement analysis and development planning activities.
- Participated in documentation review and approval cycles based on AVVA standards.
- Helped design and validate access certificates for firewalls and routers.
- Contributed to cybersecurity design reviews alongside security architects.

Handson Projects

Automation in ERP Order Management System Utilizing FastAPI, React, and Odoo

- Developed REST APIs using FastAPI and integrated Odoo ERP via XML-RPC for Sales Order, Invoice, and Payment workflow automation.
- Implemented JWT Authentication, secure API routes, Axios integration, and environment variable management for backend security and API communication.
- Built a React.js frontend with login flow, protected routes, reusable components, form validation, and dynamic dashboard functionality.
- **Technologies Used:**
Python, FastAPI, React.js, JWT, Axios, Odoo ERP, XML-RPC, JavaScript, HTML, CSS, Git, GitHub

AI Research Assistant | FastAPI, Python, Agentic AI, REST APIs

- Developed a modular AI Research Assistant utilizing FastAPI, Python, and REST APIs, featuring intelligent multi-tool orchestration.
- Executed LLM-based tool routing, prompt engineering, system prompts, temperature tuning, and fallback routing frameworks.
- Integrated various external APIs, including weather services, web search retrieval, calculator utilities, and real-time response workflows.

Created a scalable backend architecture employing FastAPI, JSON management, API integrations, environment variables, and a modular service-based design.

TECHNICAL SKILLS

ERP & Frameworks

Odoo ERP version 16 17 18, QWeb, Fast API, Knowledge Django

Database & Backend

Good understanding of SQL/ NoSQL databases PostgreSQL (PSQL), DBMS Concepts

Version Control

Git and GitHub

Project Tools

Jira, Confluence

Core Knowledge

SDLC, Data Structures, Software Design Principles, REST API's ,SOAP

Programming Languages

Python, JavaScript, XML, HTML, CSS, C, C++

Odoo Development

Custom Module Development, ORM & Business Logic, View Customization (Form/ Tree/ Pivot/ Graph), Access Rights & Record Rules, Workflow Automation, QWeb Reports, Email Template Integration, API Integration Using Fast API

IDEs & Tools

PyCharm, Jupyter Notebook, Visual Studio Code

Operating Systems

Windows, Linux

EDUCATION

Post Graduate Diploma – HPC, *Center of Development and Advance Computing*

08/2023 – 02/2024
Bengaluru

Bachelor of Computer Science and Engineering,

Visvesvaraya Technological University

2019 – 2023
Karnataka

CERTIFICATIONS

Web Development Certification
– Infotech, Mysore (Aug 2020)

Foundation of C and C++ – DM
Techtrix (June 2019)

Software Design Principles –
IEEE (Aug 2022)

Introduction to Cybersecurity –
Cisco (Aug 2023)

Introduction to Data Science –
Cisco (May 2023)

CDAC – Center for
Development of Advanced
Computing (HPC) (Aug 2024)
